Last Week's Program

Our guest speaker last week was Peg Howell who told us about the issues and effects of offshore drilling on the Carolina Coast. Stop Offshore Drilling in the Atlantic (SODA) is an all-volunteer, non-partisan grassroots group formed because of a desire to protect and preserve the health and beauty of the Atlantic coast. Their mission: prevent offshore seismic blasting and drilling for oil and gas. She pointed out multiple reasons, including the harm it does to marine life and potential impact on tourism.
