## Last Week's Program

Last week we heard a panel discussion from Dr. Brendan Kelly, Molly Talbot Metz, Dr. Kathleen Brady and Mitch Kennedy with responses to Spartanburg's Race Equity Index Report, moderated by Dr. Carlotta Redish. They reviewed issues that have seen some success, such as teen pregnancy, which has declined 60% since 2008, as well as other areas that are challenges, such as affordable housing and health care access. The panel emphasized that the results of the report are a call to action to address racial inequity in our community.
