Last Week's Program

Sean O'Connell was our guest speaker at our last meeting, giving us an overview of the new Topgolf Development that has recently opened in Greenville just off of I-85 at Pelham Road. He told us that the Greenville facility is the 50th venue that has opened in the U.S. They have 72 bays that can accommodate up to six people per bay. They offer a full service restaurant and bar, and they are available for private or corporate events.
