Last Week's Program

Last week Dr. Nalin Srivastava and Dr. Jason Rousseau shared some exciting news about some new procedures that they are performing at the Spartanburg Regional Heart Center. They told us about the Structural Heart Intervention Program, which involves disease of the major cardiovascular structures, the valves and chambers of the heart. Many of the procedures can be done in the cardiac catheterization lab rather than requiring surgery, which results in a much shorter length of stay in the hospital.

Upcoming Programs

Feb. 4	HALTER - Horseback Riding Therapy Program - Nancy Paschall
Feb. 11	The Future of USC Upstate - Dr. Brendan Kelly

Please contact Richard Rhodes if you can volunteer some of your time to help with this event! Proceeds raised from the event are used to support our Rotary Club's Youth Opportunity Grants Program in which community organizations working with youth throughout the county may apply for grants.
